Civil Action No. 5:16-cv-10444-JEL-
MKM (consolidated)

Hon. Judith E. Levy
Mag. Mona K. Majzoub

**DECLARATION OF CAMERON R. AZARI, ESQ. ON IMPLEMENTATION AND
ADEQUACY OF SETTLEMENT NOTICE PLAN**

I, Cameron Azari, declare as follows:

1. My name is Cameron R. Azari, Esq. I have personal knowledge of the matters set forth herein, and I believe them to be true and correct.

2. I am a nationally recognized expert in the field of legal notice, and I have served as an expert in hundreds of federal and state cases involving class action notice plans.

3. I am a Senior Vice President with Epiq Class Action & Claims Solutions, Inc. (“Epiq”) and the Director of Legal Notice for Hilsoft Notifications (“Hilsoft”); a firm that specializes in designing, developing, analyzing and implementing large-scale legal notification plans. Hilsoft is a business unit of Epiq.

4. This declaration will describe the implementation of the Settlement Notice Plan (“Notice Plan”) for the Settlement in *In re Flint Water Cases*, Civil Action No. 5:16-cv-10444-JEL-MKM (consolidated) in the United States District Court for the Eastern District of Michigan. I previously executed my *Declaration of Cameron R. Azari, Esq. on Settlement Notice Plan* (“Notice Plan Declaration”) on November 17, 2020, in which I detailed Hilsoft’s class action notice experience and attached Hilsoft’s *curriculum vitae*. I also provided my educational and professional experience relating to class actions and my ability to render opinions on overall adequacy of notice programs.

**DECLARATION OF CAMERON R. AZARI, ESQ. ON IMPLEMENTATION AND
ADEQUACY OF SETTLEMENT NOTICE PLAN**

OVERVIEW

5. On January 21, 2021, the Court approved the Notice Plan as designed by Hilsoft, appointed Epiq as the Notice Administrator, and appointed Archer Systems as the Claims Administrator and QSF Administrator in the *Opinion and Order Granting Plaintiffs' Motion to Establish Settlement Claims Procedures and Allocation and for Preliminary Approval of Class Settlement Components and Granting Plaintiffs' Motion for an Order Adopting the Proposed Motion for Approval of Wrongful Death Settlement* ("Preliminary Approval Order"). In the Preliminary Approval Order, the Court certified the following "Settlement Class":

[A]ll persons or entities who are or could be claiming personal injury, property damage, business economic loss, unjust enrichment, breach of contract, or seeking any other type of damage or relief because at any time during the Exposure Period [of April 25, 2014 and November 16, 2020] they: (1) were an Adult who owned or lived in a residence that received water from the Flint Water Treatment Plant or were legally liable for the payment of such water; (2) owned or operated a business including income earning real property and any other businesses that received water from the Flint Water Treatment Plant or were legally liable for the payment for such water; or (3) were an Adult during the Exposure Period and who ingested or came into contact with water received from the Flint Water Treatment Plant.

Excluded from the Settlement Class are: (1) Defendants; (2) the judicial officers to whom this case is assigned in federal court, Genesee County Circuit Court, and the Michigan Court of Claims, as well as these officers' staff and immediate family members; (3) all Individual Plaintiffs; and (4) all persons who timely and validly elect to opt out of the Settlement Class.

6. In the Preliminary Approval Order, the Court further detailed that Adults (defined as those who were at least eighteen years old during the Exposure Period) who are not already represented by counsel are members of the Settlement Class.

7. It is my understanding from discussions with counsel that the Settlement (the "Settlement Program") is global in nature and includes remedies for Settlement Class Members and separately, individuals who are a "Minor," and "Individual Plaintiffs" (who are represented by their own counsel). It is further my understanding that individuals who are a Minor and previously noted Individual Plaintiffs are not members of the Settlement Class.

DECLARATION OF CAMERON R. AZARI, ESQ. ON IMPLEMENTATION AND ADEQUACY OF SETTLEMENT NOTICE PLAN

8. After the Court’s Preliminary Approval Order was entered, we began to implement the Notice Program. This declaration will detail the notice activities undertaken and explain how and why the Notice Plan was comprehensive and well-suited to the Settlement Class. This declaration will also discuss the notice administration activity to date. The facts in this declaration are based on what I personally know, as well as information provided to me in the ordinary course of my business by my colleagues from Hilsoft and Epiq, who worked with us to implement the notification effort.

NOTICE PLANNING SUMMARY

9. Rule 23 of the Federal Rules of Civil Procedure directs that the best notice practicable under the circumstances, including “individual notice to all members who can be identified through reasonable effort.”¹ The Notice Plan here satisfied this requirement with individual notice to identified Settlement Class Members — a Long Form Notice Package was mailed via United States Postal Service (“USPS”) first class mail and an Email Notice was also sent to identified Settlement Class Members with a facially valid email address. A comprehensive media effort furthered the reach of the Notice Plan to Settlement Class Members.

10. In my experience, the reach of the Notice Plan is consistent with other court-approved notice programs and was designed to meet due process requirements. In my opinion, the Notice Plan was the best notice practicable under the circumstances of this case and satisfied the requirements of due process, including its “desire to actually inform” requirement.²

CAFA NOTICE

11. As described in the *Declaration of Stephanie J. Fiereck, Esq. on Implementation of CAFA Notice*, dated November 25, 2020 (“Fiereck Declaration”), Epiq sent a CAFA notice packet (“CAFA Notice”), on behalf of Settling Defendants State of Michigan; Michigan Department of Environmental Quality (now the Michigan Department of Environment, Great Lakes, and Energy);

¹ FRCP 23(c)(2)(B).

² See *Mullane v. Cent. Hanover Bank & Trust Co.*, 339 U.S. 306, 315 (1950).

Michigan Department of Health and Human Services; Michigan Department of Treasury; former Governor Richard D. Snyder; Governor Gretchen Whitmer; the City of Flint; the Flint Receivership Transition Advisory Board; Darnell Earley; Howard Croft; Michael Glasgow; Gerald Ambrose; Edward Kurtz; Michael Brown; Dayne Walling; Daugherty Johnson; Liane Shekter Smith; Daniel Wyant; Stephen Busch; Kevin Clinton; Patrick Cook; Linda Dykema; Michael Prysby; Bradley Wurfel; Eden Wells; Nick Lyon; Dennis Muchmore; Nancy Peeler; Robert Scott; Adam Rosenthal; Andy Dillon; McLaren Regional Medical Center, McLaren Flint Hospital, McLaren Health Care Corporation, and Rowe Professional Services Company—as required by the federal Class Action Fairness Act of 2005 (CAFA), 28 U.S.C. § 1715.

12. On November 25, 2020, Epiq sent a CAFA Notice to 57 federal and state officials, which included the Attorney General of the United States and the Attorneys General of each of the 50 states, the District of Columbia, and the U.S. Territories. The CAFA Notice was mailed via USPS certified mail to 56 officials (the Attorneys General of each of the 50 states, the District of Columbia, and U.S. Territories). The CAFA Notice was also sent via United Parcel Service (“UPS”) to the Attorney General of the United States. The Fiereck Declaration is included as **Attachment 1**.

NOTICE PLAN DETAIL

Individual Notice

13. On January 12, 2021, the Parties provided the Settlement Class Member List to Epiq. The data file contained the last known mailing address and services address of 58,827 unique customer records of the Flint, Michigan Water Treatment Plant during the class period.

14. On January 21, 2021, the Parties provided the Represented Parties List to Epiq. The data file contained 26,006 names and mailing addresses of parties who have retained private counsel and are litigating separately from the Settlement. Since all the records in this file are not eligible to be noticed as part the class action Settlement, Epiq loaded the data into the case database for matching and exclusion purposes only.

DECLARATION OF CAMERON R. AZARI, ESQ. ON IMPLEMENTATION AND ADEQUACY OF SETTLEMENT NOTICE PLAN

15. Subsequently, Epiq de-duplicated the Settlement Class Member List against the Represented Parties List based on name and address matching logic, which resulted in 57,404 unique Settlement Class Members records for the initial notice efforts (of the 58,827 records in the Settlement Class Member List, 1,423 records were identified on the Represented Parties List and therefore excluded from the notice mailing list for the class action Settlement).

Individual Notice – Direct Mail

16. From February 19, 2021, through February 22, 2021, Epiq sent 57,404 Long Form Notice Packages via USPS first class mail. The Long Form Notice Package included the Registration Form (and Supporting Documentation for the Registration Form), Opt Out Form, Return Envelope, Settlement Program Overview Notice, Long Form Notice, and Compensation Grid. The Notices directed the recipients to the settlement website dedicated to the Settlement where Settlement Class Members can access additional information. The contents of the Long Form Notice Package are included as **Attachment 2**.

17. A Claim Form was not included as part of the Long Form Notice Package. After the Registration Form submission period, a separate Claim Form Package will be sent to Settlement Class Members who filed a complete and valid Registration Form by the deadline. The Claim Form Package will include a Claim Form and Claim Form Filing Instructions.

18. Prior to mailing the Long Form Notice Packages, all mailing addresses were checked against the National Change of Address (“NCOA”) database maintained by the USPS.³ In addition, the addresses were certified via the Coding Accuracy Support System (“CASS”) to ensure the quality of the zip codes, and verified through Delivery Point Validation (“DPV”) to verify the accuracy of the addresses. This address updating process is standard for the industry and for the majority of promotional mailings that occur today.

³ The NCOA database contains records of all permanent change of address submissions received by the USPS for the last four years. The USPS makes this data available to mailing firms and lists submitted to it are automatically updated with any reported move based on a comparison with the person’s name and known address.

19. The return address on the Long Form Notice Packages is a post office box maintained by Epiq. The USPS automatically forwards Long Form Notice Packages with an available forwarding address order that has not expired (“Postal Forwards”). For Long Form Notice Packages returned as undeliverable, Epiq re-mailed the Notice to any new address available through USPS information (for example, to the address provided by the USPS on returned pieces for which the automatic forwarding order has expired, but which is still during the period in which the postal service returns the mail piece with the address indicated). Epiq also obtained better addresses by using a third-party lookup service. Upon successfully locating better addresses, Long Form Notice Packages were promptly re-mailed. As of May 26, 2021, the USPS has sent three Postal Forwards. As of May 26, 2021, Epiq has received 5,544 undeliverable Long Form Notice Packages and re-mailed 422 Long Form Notice Packages for those addresses where a forwarding address was provided or address research identified a new address. As of May 26, 2021, 4,938 unique Settlement Class Member records remain undeliverable after sending individual mailed notice and/or email notice, which is a 91.4% deliverable rate.

20. Additionally, a Long Form Notice Package was mailed via USPS first class mail to all persons who requested one via the toll-free telephone number established for the Settlement. As of May 26, 2021, Archer Systems has sent 2,256 Long Form Notice Packages as a result of such requests.

Individual Notice – Reminder Email Notice

21. On March 22, 2021, Epiq received a file from the Parties, which contained 4,605 email addresses for potential Settlement Class Members. On March 25, 2021, Epiq sent 4,599 Email Notices to the potential Settlement Class Members with a facially valid email address. Industry standard best practices were followed for the Email Notice efforts. The Email Notice was drafted in such a way that the subject line, the sender, and the body of the message would overcome SPAM filters and ensure readership to the fullest extent reasonably practicable. For instance, the Email Notice used an embedded html text format. This format provided easy to read text without

**DECLARATION OF CAMERON R. AZARI, ESQ. ON IMPLEMENTATION AND
ADEQUACY OF SETTLEMENT NOTICE PLAN**

graphics, tables, images, attachments, and other elements that would increase the likelihood that the message could be blocked by Internet Service Providers (ISPs) and/or SPAM filters. The Email Notices was sent from an IP address known to major email providers as one not used to send bulk “SPAM” or “junk” email blasts. Each Email Notice was transmitted with a digital signature to the header and content of the Email Notice, which allowed ISPs to programmatically authenticate that the Email Notices were from our authorized mail servers. Each Email Notice was transmitted with a unique message identifier. The Email Notice included an embedded link to the settlement website. By clicking the link, recipients were able to easily access important information and documents regarding the Settlement. The Email Notice is included as **Attachment 3**.

22. If the receiving email server could not deliver the message, a “bounce code” was returned along with the unique message identifier. For any Email Notice for which a bounce code was received that indicated that the message was undeliverable for reasons such as an inactive or disabled account, the recipient’s mailbox was full, technical auto-replies, etc., at least two additional attempts were made to deliver the Notice by email. As of May 26, 2021, 379 Email Notices remain undeliverable.

The Media Plan

23. The Media Plan included various forms of notice including local newspaper publication, digital banner notices, social media, online video and audio ads, local television, local radio (both paid and through Public Service Announcements (“PSAs”)), sponsored search, and a national informational release.

Local Newspaper Publication

24. The Media Plan included publication of a 1/4 page Publication Notice in *The Flint Journal*, which appeared once in a Sunday edition (March 7, 2021, on page A18) and once in a weekday edition (March 2, 2021, on page A3). *The Flint Journal* has a daily readership of 64,571 and a Sunday readership of 85,203. According to GfK MRI, adults in Flint, Michigan are 21% more likely than the average U.S. adult to read a daily newspaper and 30% more likely to read a

Sunday paper.

25. Positioning was sought for the Notices to be placed opposite news articles to help ensure that over the course of the media schedule, the greatest practicable number of Settlement Class Members would see the Notice. The Publication Notice is included as **Attachment 4**. The publication tear-sheets are included as **Attachment 5**.

Digital Banner Notice

26. Internet advertising has become a standard component in legal notice programs. The internet has proven to be an efficient and cost-effective method to target and provide measurable reach of persons covered by a settlement. According to GfK MRI syndicated research, approximately 84% of adults in Flint, Michigan are online.

27. The Notice Plan included advertising with Banner Notices on selected advertising networks that Settlement Class Members were likely to visit regularly, all selected based on cost efficiency, timing, and contribution to the overall reach of the target audiences. The Banner Notices linked directly to the settlement website, which provided visitors easy access to relevant information and documents. The Banner Notices used language from the Publication Notice, which allowed users to identify themselves as potential Settlement Class Members.

28. The Notice Plan included Banner Notices in various sizes, which were placed on the *Google Display Network*. Banner Notices on the *Google Display Network* ran on desktop, mobile and tablet devices, and were targeted as detailed in the table in below.

29. The Notice Plan also included advertising in the form of Banner Notices on social media, which included *Facebook* and *Instagram*. According to GfK MRI, 74% of adults in Flint, Michigan use social networking. *Facebook* is the leading social networking site in the United States and combined with *Instagram* covers more than 300 million users in the United States.

30. More details regarding the Banner Notices, are as follows:

31. Combined, approximately 49.8 million adult impressions were generated by the Banner Notices, which ran from February 26, 2021, through March 28, 2021⁴. Clicking on the Banner Notices linked the reader to the settlement website to obtain detailed information about the

⁴ The third-party ad management platform, ClickCease was used to audit the digital Banner Notice ad placements. This type of platform tracks all Banner Notice ad clicks to provide real-time ad monitoring, fraud traffic analysis, blocks clicks from fraudulent sources, and quarantines dangerous IP addresses. This helps reduce wasted, fraudulent or otherwise invalid traffic (e.g., ads being seen by 'bots' or non-humans, ads not being viewable, etc.).

Settlement. Examples of the Banner Notices are included as **Attachment 6**.

32. The Banner Notices were geo-targeted to both Flint, Michigan and the entire state of Michigan. Since it was expected that some individuals who lived in Flint, Michigan during the Exposure Period have moved to other parts of the United States, the following supplemental digital Banner Notices provided notice to non-Michigan state residents.⁵ All of the Banner Notices were displayed in English. More details regarding the Banner Notices, are as follows:

<i>Property</i>	<i>Target</i>	<i>Distribution</i>	<i>Ad Sizes</i>	<i>Delivered Impressions</i>

33. Combined, approximately 61.9 million adult impressions were generated by the supplemental Banner Notices, which ran from February 26, 2021, through March 28, 2021. Clicking on the Banner Notices linked the reader to the settlement website to obtain detailed information about the Settlement.

34. Throughout the implementation of the Notice Plan, Hilsoft continuously monitored the effectiveness of the Banner Notices to ensure impression goals were met. Banner Notices were also targeted (remarketed) to people who visited the settlement website.

Local Flint, Michigan Television

35. According to GfK MRI, 65% of adults in Flint, Michigan are medium to heavy

⁵ Chicago, Milwaukee, Cleveland, Columbus (OH), Indianapolis, and Cincinnati were identified as large metropolitan areas surrounding the state of Michigan, and are selected to target potential Settlement Class Members who may have moved outside the state, but stayed in the greater East North Central area (defined by the Census as Wisconsin, Illinois, Indiana, Ohio, and Michigan).

television viewers. The Notice Plan included 30-second television spots that aired in English on six local television stations in Flint, Michigan, including WBSF, WEYI, WSMH, ENEM (MyNetworkTV), WNEM, and WJRT. The television spots aired during a two-week schedule, which ran from March 1, 2021, through March 14, 2021, on the selected television stations. The television spots aired all days of the week, including weekends, across all major times of day ensuring coverage to a wide range of viewers. In total 1,033 Adults 18+ rating points were purchased on local television. A detailed post-buy analysis of the television activity outlining the stations, number of spots per station, and total GRPs is included as **Attachment 7**.

Local Flint, Michigan Radio Notice

36. The Notice Plan included 30-second radio spots that aired in English and Spanish across 10 local radio stations in Flint, Michigan, including WDZZ-FM, WCRZ-FM, WRSR-FM, WFBE-FM, WFNT-AM, WWBN-FM, WWCK-FM, WRCL-FM, WJR-AM, and WDTW-AM. The radio spots aired during a two-week schedule, which aired from March 1, 2021, through March 14, 2021, on the selected radio stations. The radio spots aired all days of the week, including weekends, across all major times of day ensuring coverage to a wide range of listeners.

37. The radio spots featured the settlement website address and toll-free telephone number to increase the opportunity for Settlement Class Members to obtain more information and respond. A CD of the recorded radio spot is available upon request. In total 504 Adults 18+ rating points were purchased on local radio. A detailed post-buy analysis of the radio activity outlining the stations, number of spots per station, and total GRPs is included as **Attachment 8**. The radio script in English and Spanish is included as **Attachment 9**.

Additional Broadcast Efforts

38. In addition, Banner Notices and Radio Ads were placed on *Pandora / SoundCloud*. The Radio Ads were 30 second audio ads and played alongside a companion Banner Notice to provide a visual element to the audio ad. Pandora, a subsidiary of Sirius XM, is the largest streaming music provider in the United States, with approximately 70 million national users each month.

DECLARATION OF CAMERON R. AZARI, ESQ. ON IMPLEMENTATION AND ADEQUACY OF SETTLEMENT NOTICE PLAN

39. Video Ads (which were the same content as the television ads) were also displayed on YouTube as “Pre-Roll” 30-second skip-able in-stream Video Ads, which appeared when a user began to view a video. If a user skipped the ad before 30 seconds, there was no cost. A cost was only incurred if the user watched for the full 30 seconds. Ads were served on both the YouTube desktop and mobile website (including on the YouTube mobile app) and included a click-through function to the settlement website.

* Notices were in English. ^Notices were in Spanish.

State of Michigan Radio PSAs

40. The Notice Plan included 30-second PSAs in both English and Spanish, which was distributed throughout the state of Michigan to English and Spanish language radio stations. A PSA Notice Package, which included the radio spots and an explanation of the importance of the PSAs was sent digitally to each station. The radio spots featured the settlement website address and toll-free telephone number to increase the opportunity for Settlement Class Members to obtain more information and/or respond to the Notice.

Sponsored Search Listings

41. The Notice Plan included sponsored search listings to facilitate locating the settlement website. Sponsored search listings were acquired on the three most highly-visited internet search engines: *Google*, *Yahoo!* and *Bing*. When search engine visitors searched on selected common keyword combinations related to the Settlement, the sponsored search listing were

DECLARATION OF CAMERON R. AZARI, ESQ. ON IMPLEMENTATION AND ADEQUACY OF SETTLEMENT NOTICE PLAN

generally displayed at the top of the page prior to the search results or in the upper right-hand column.

42. The sponsored search listings were acquired from February 26, 2021, through March 28, 2021, and were displayed 57,543 times, which resulted in 7,687 clicks that displayed the settlement website. A complete list of the sponsored search keyword combinations is included as **Attachment 10**. Examples of the sponsored search listing as displayed on each search engine are included as **Attachment 11**.

Informational Release

43. To build additional reach and extend exposures, on February 26, 2021, a party-neutral, Informational Release was issued broadly over PR Newswire to approximately 5,000 general media (print and broadcast) outlets, including local and national newspapers, magazines, national wire services, television and radio broadcast media across the United States as well as approximately 4,500 websites, online databases, internet networks and social networking media. The Informational Release was translated into Spanish and released to Spanish-language newlines in conjunction with the English language release. The Hispanic newline (distributed in Spanish) reaches over 1,900 Hispanic US general media contacts as well as up to 4,840 additional industry-specific Hispanic media contacts. The Hispanic release also included placement on over 140 Hispanic websites and/or news portals. In addition, the Informational Release was targeted to over 600 journalists who report on specific topics, including “water treatment and supply” and “pollution.” The Informational Release served a valuable role by providing additional notice exposures beyond that which was provided by the paid media. The Information Release in English and Spanish is included as **Attachment 12**.

Settlement Website

44. A settlement website was established by Archer Systems with an easy-to-remember domain name (www.OfficialFlintWaterSettlement.com). The Settlement Class is able to obtain detailed information about the case and review key documents, including the Settlement

Agreement, Long Form Notice, Settlement Program Overview Notice (contained in the Long Form Notice Package), Registration Form, Opt Out Form, Compensation Grid, and other important court documents as well as answers to frequently asked questions (“FAQs”). Settlement Class Members were also able to easily register at the website, or download a paper Registration Form to submit by mail. The website address was displayed prominently on all Notice documents.

Toll-free Telephone Number and Postal Mailing Address

45. A toll-free telephone number (1-800-493-1754) was established by Archer Systems to allow Settlement Class Members to call for additional information, listen to answers to FAQs, and request that a Notice be mailed to them. The toll-free telephone number was prominently displayed in the Notice documents as well. The automated phone system is available 24 hours per day, 7 days per week. During normal business hours, callers have the option to speak to a service agent in English or Spanish.

46. A post office box and email address for correspondence regarding the Settlement were established and maintained by Archer Systems to allow Settlement Class Members to contact the Claims Administrator by mail and/or email with any specific requests or questions.

PLAIN LANGUAGE NOTICE DESIGN

47. All Notices were designed to increase noticeability and comprehension. The Notices were designed to be “noticed,” reviewed, and—by presenting the information in plain language—to be clearly understood and to encourage readership and comprehension. The design of the Notices followed the principles embodied in the Federal Judicial Center’s illustrative “model” notices posted at www.fjc.gov. Many courts, and as previously cited, the FJC itself, have approved notices that we have written and designed in a similar fashion. The Notices contain substantial, albeit easy-to-read, summaries of all of the key information about rights and options available. Consistent with our normal practice, all notice documents underwent a final edit for accuracy prior to actual mailing and publication.

48. The Publication Notice features a prominent headline in bold text. These design

elements alerted the recipients and readers that the Notice is an important document authorized by the Court and that the content may affect them, thereby supplying reasons to read the Notice.

49. The Long Form Notice features a prominent headline in bold text. The Long Form Notice provides substantial information. It begins with a summary page, which provides a concise overview of the important information, which highlights key options available as a result of the Settlement. A table of contents, which is categorized into logical sections, helps to organize the information, while a question and answer format makes it easy to find answers to common questions by breaking the information into simple headings.

CONCLUSION

50. In class action notice planning, execution, and analysis, we are guided by due process considerations under the United States Constitution, by federal and local rules and statutes, and further by case law pertaining to notice. This framework directs that the notice plan be designed to reach the greatest practicable number of potential class members and, in a settlement class action notice situation such as this, that the notice or notice plan itself not limit knowledge of the availability of benefits—nor the ability to exercise other options—to class members in any way. All of these requirements were met in this case.

51. The Notice Plan included individual, direct mailed notice to all Settlement Class Members who could be identified with reasonable effort. With the address updating protocols that were employed, we delivered individual notice to approximately 91.4% of the identified Settlement Class. The media notice supplemented the reach of the direct mail notice and brought the overall reach of the notice effort to in excess of 95%. In 2010, the Federal Judicial Center issued a Judges' Class Action Notice and Claims Process Checklist and Plain Language Guide. This Guide states that, "the lynchpin in an objective determination of the adequacy of a proposed notice effort is whether all the notice efforts together will reach a high percentage of the class. It is reasonable to reach between 70–95%." Here, we have developed and implemented a Notice Plan that readily achieved a reach at the highest end of that standard.

DECLARATION OF CAMERON R. AZARI, ESQ. ON IMPLEMENTATION AND ADEQUACY OF SETTLEMENT NOTICE PLAN

52. The Notice Plan followed the guidance for how to satisfy due process obligations that a notice expert gleans from the United States Supreme Court's seminal decisions, which are: a) to endeavor to actually inform the class, and b) to demonstrate that notice is reasonably calculated to do so:

A. "But when notice is a person's due, process which is a mere gesture is not due process. The means employed must be such as one desirous of actually informing the absentee might reasonably adopt to accomplish it," *Mullane v. Central Hanover Trust*, 339 U.S. 306, 315 (1950).

B. "[N]otice must be reasonably calculated, under all the circumstances, to apprise interested parties of the pendency of the action and afford them an opportunity to present their objections," *Eisen v. Carlisle & Jacquelin*, 417 U.S. 156 (1974) citing *Mullane* at 314.

53. The Notice Plan described above provided the best notice practicable under the circumstances of this case, conformed to all aspects of the Rule 23, and comported with the guidance for effective notice set out in the Manual for Complex Litigation, Fourth.

54. The Notice Plan schedule afforded sufficient time to provide full and proper notice to Settlement Class Members before the opt out and objection deadlines.

Flint Water Settlement Registration Form

VERIFIED REGISTRATION FORM

The instructions below explain the form and documents that you must submit to be eligible to later assert a claim for compensation from the Flint Water Cases Qualified Settlement Fund.

**PLEASE CAREFULLY READ ALL THE INSTRUCTIONS
BEFORE SUBMITTING YOUR REGISTRATION**

1. INSTRUCTIONS AND REGISTRATION CRITERIA

You must submit this completed and signed Verified Registration Form and provide the supporting documentation mentioned in this form or its attachment ("Registration").

The **deadline to register** is March 29, 2021. For paper submissions, this deadline is determined by the date your return envelope is postmarked. You can also complete the Registration Form online: OfficialFlintWaterSettlement.com. You must complete all applicable blanks in this form.

- By signing this Registration Form, you attest that you as the "Registrant" (or if you are filling out this form for someone else, that they as the "Registrant") are claiming or could claim personal injury, property damage, business economic loss, unjust enrichment, breach of contract, or any other type of damage or relief due to, and fit into, at least one of the following descriptions (check all that apply to you):
 - ☐ Registrant owned or lived in a residence served by the Flint Water Treatment Plant ("FWTP") or was legally liable for the payment of bills for such water, during the period April 25, 2014 to November 16, 2020.
 - ☐ Registrant owned or operated a business served by the FWTP or was legally liable for the payment of bills for such water, during the period April 25, 2014 to November 16, 2020.
 - ☐ Registrant was exposed to water from the FWTP for at least 21 days during any 30-day period between April 25, 2014 and November 16, 2020.
 - ☐ During the period April 25, 2014 through December 31, 2018, Registrant was both exposed to water from the FWTP and diagnosed with Legionnaires' Disease.

After you submit this Registration Form, the Claims Administrator will send you a Claim Form if you are eligible to make a claim from the Settlement. That later Claim Form will explain the documents and other information that you will need to submit at that time. The Claim Form will allow you to pick one or more of 30 possible claim categories. To receive a payment, you will need to provide the supporting information for the claim category or categories you select. Your Registration Form alone does not guarantee that you will receive a payment. You can find more information on the supporting documents and information that will be required at that later stage for each of the 30 possible categories at OfficialFlintWaterSettlement.com.

Subject: Legal Notice of Class Action Settlement

If you were exposed to water from the Flint Water Treatment Plant between April 25, 2014, and November 16, 2020, your rights may be affected by a \$641 million settlement.

UNITED STATES DISTRICT COURT EASTERN DISTRICT OF MICHIGAN
The deadline to register for the Settlement is March 29, 2021.
To learn more, visit www.OfficialFlintWaterSettlement.com.

This electronic notice explains a class action settlement in the Flint Water Cases. The notice applies to you if at any time during the period April 25, 2014, to November 16, 2020 ("Exposure Period"):

- (1) you were exposed to water from the Flint Water Treatment Plant ("FWTP") and you were 18 years or older at any time when you were exposed; or
- (2) you were 18 years or older at any time when you owned, rented, or lived in residential property served by the FWTP, or were legally liable for the payment for such water, during that time; or
- (3) you owned or operated a business served by the FWTP, or were legally liable for the payment for such water, during that time.

What is the lawsuit about? The lawsuits assert that residents of Flint and others who used or were exposed to water from the FWTP between April 25, 2014, and November 16, 2020, suffered personal injury, property damage, economic loss, or any other type of damage or injury as a result of exposure to, use of, or being obligated to pay for, the contaminated water. The lawsuits claim that when the City of Flint switched to the Flint River as the source of water in 2014, the water was not treated correctly and that it caused pipes to corrode and release lead and other contaminants into the water. Plaintiffs allege that exposure to contaminated water received from the Flint Water Treatment Plant (located at 4500 Dort Highway, Flint, Michigan 48506), during the period April 25, 2014, to November 16, 2020, has caused a public health crisis.

Settling Defendants deny any and all alleged liability, wrongdoing, violations, and/or damages. The Court has not decided who is right.

Who is included? The Settlement Class includes all persons or entities who are or could be claiming personal injury, property damage, business economic loss, unjust enrichment, breach of contract, or seeking any other type of damage or relief. Specific details on the Settlement Class and Subclasses are available at www.OfficialFlintWaterSettlement.com.

What does the Settlement provide? The value of the entire Settlement Program is approximately \$641.25 million. The Settlement Fund is allocated among different categories. Please visit www.OfficialFlintWaterSettlement.com to see how the Settlement Fund is allocated by category. If the settlement becomes final, Settlement Class Members who participate in the settlement or do nothing at all will release all their claims against the Settling Defendants. They

will not be allowed to bring any lawsuit against the Settling Defendants related to Flint water or the Flint Water Cases.

What are your options?

To make a claim for money from the class action Settlement Fund, you must first submit a valid Registration Form. You may file your Registration Form online or by mail. The deadline to file a Registration Form online is 11:59 p.m. PDT on **March 29, 2021**. The postmark deadline to file a Registration Form by mail is **March 29, 2021**.

Visit www.OfficialFlintWaterSettlement.com now to file your online Registration Form or print one to file by mail. Those that validly file a Registration Form will later be sent a Claim Form along with instructions about how to complete the Claim Form.

If you do not want to participate in this proposed class settlement and you want to keep the right to sue the Settling Defendants about the legal issues in this case, then you must take steps to get out of the settlement. This is called “opting out” of the Settlement Class. To opt out of the Settlement Class and not participate in the settlement, you must send a written request using the Opt Out Form provided at www.OfficialFlintWaterSettlement.com. You must mail your completed Opt Out Form, postmarked by **March 29, 2021**. If you are a member of the Settlement Class and do not opt out, you give up the right to sue the Settling Defendants for any of the claims released by the settlement.

If you are a Settlement Class Member (and do not exclude yourself from the Settlement Class), you can object to any part of the Settlement. The deadline to file an objection is **March 29, 2021**. For more information on how to Opt Out or Object, please visit www.OfficialFlintWaterSettlement.com.

When is the Fairness Hearing? The Court will hold a Fairness Hearing, currently scheduled for **July 12, 2021**, to determine whether the Settlement Class can be certified and whether the settlement is fair, adequate, and reasonable and should be finally approved, with judgment entered accordingly. The Court will also consider the application for an award of attorneys’ fees and expense reimbursement. You are welcome to attend the hearing at your own expense, but you are not required to attend. You may also hire your own attorney, at your own expense, to appear or speak for you at the hearing.

PANDEMIC

Everyday people ask when they will get vaccine

Continues from A1

Whether it's anticipation of safely seeing friends again or no longer fearing a return to work, the COVID-19 vaccine is top of mind for many Michiganders.

WATCHING AND WAITING

LeClear had her second shot of the vaccine Feb. 12, about a month after her age group became eligible, while some of her friends have yet to get one.

They joke they should drive to the nearby Pfizer plant and get some right off the line.

"(It's) probably five miles from where I'm sitting right now," said 79-year-old Connie Ferguson, of Kalamazoo. "So we kind of chuckle when we say 'Here's Pfizer down the road.' But did we get the vaccine first? No."

Ferguson said the friends understand the eligibility list and scheduling process, but still feel some frustration. They share information on how to get signed up.

She said she and her husband also have gotten both shots.

"We were very lucky," Ferguson said. "I tend to look at the (MLive) headlines a couple times a day, and I checked in and I saw a thing that was date stamped a half-hour before that said Bronson (Methodist Hospital) opened their list. So I went and signed up."

LeClear said she put her name in at several locations, including the Kalamazoo County health department, her Meijer pharmacy and her Bronson patient portal.

"I had been waiting and waiting and waiting and hadn't heard anything," she said, when an opening popped up at a fourth site, Family Health Center, a federally qualified site that gets a direct allotment, as do nursing homes and pharmacies.

Ferguson said her friends all are comfortable going online but often think of those who lack a computer and connection.

"What about all the people who are at least in as much need of the shots as we are, who don't have that access?" she asked. "I think it just took them a while to make things available via phone."

The state Department of Health and Human Services does have a 211 hotline to help connect people and vaccine providers, spokeswoman Lynn Sutfin said, as well as a general COVID-19 number, 888-535-6136.

While reconvening the dinner group was a motivation for getting their shots, both LeClear and Ferguson are fully vaccinated now, but they don't expect the dinner group to meet in-person for a while.

"Just because we're vaccinated doesn't mean we need to be out there and flaunting it," LeClear said. "We don't know exactly what's going to happen ... let's err on the side of caution."

WORK AND SAFETY

Not all restaurant-goers are so health conscious, Granville said.

"The people that are willing to come out are mostly the ones who ... don't believe in it or think it's a hoax or whatever," said Granville, who has worked at establishments such as Knight's, Alley Bar, Conor O'Neil's, Live and Chapala.

He said he talks with other restaurant workers, who are in the next priority group, on an Ann Arbor-area Facebook page.

They could have a two-month wait just to get into line, and he says the conversation sometimes gives him pause.

"In the greater service community, there's a lot of distrust and people that don't want to take it," Granville said. "There's a lot of anti-vaccine sentiment in ... our world, which is surprising to me to see."

He said he tries convey scientific knowledge to allay their fears.

"There's been so much misinformation spread ... so they don't know what to believe," he said. "Pfizer was literally in my hometown, my dad worked on those machines and I can explain to you exactly how they and the vaccine work."

THE NEED TO CONNECT

Ferguson said the dinner group has met for 30 years, and at the onset of the pandemic, it quickly became a support network.

"There was a little text network where we were all saying, 'OK, we learned this, we learned that.' Somebody said early on that they have a source of masks," she said. "There was that kind of neighborhood support."

But Granville, who said he loves being around people as a bartender or club DJ, said he keenly feels the lack of social contact.

"That's why we're good at what we do, because we're very outgoing and personable people," Granville said. "To have that all be gone, with no end in sight ..."

He said isolation pushed him to an extreme.

"There was a point at which I was sitting on my porch, in the rain, holding a knife to my wrist to see how it felt," he said. "... I'm a social person (and) you don't have to separate me from all of that. It nearly did me in."

And the toll of isolation remains part of his concern for his fellow workers. He recently lost two friends, including one by suicide.

Granville recently started getting regular COVID-19 tests so he can more safely see some loved ones, but he said vaccination is the first real step toward normal. But when will normal happen?

Said Granville: "There's no way of telling."

“There’s been so much misinformation spread ... so they don’t know what to believe. Pfizer was literally in my hometown, my dad worked on those machines and I can explain to you exactly how they and the vaccine work.”

ANTI-GOVERNMENT PROTEST

Real militias report to the governor

Continues from A1

protests, including an April 30 rally in Lansing, where armed protesters inside the Capitol demanded admission to the House floor. Some holding rifles also loomed over lawmakers from the Senate gallery.

Even so, no clash with troops materialized and the firearms were permitted inside the Capitol, which was since banned open carry there.

SEEING VIOLENCE

Not that the potential for violence is absent.

Another manifestation of the militia impulse came this past summer as police brutality protests drew groups to ostensibly support law enforcement in protecting property from vandalism and violence. That took a human toll in Kenosha, Wisconsin, when two people were killed by gunfire and a freelancing teen from Illinois who mingled with the militia there was charged with homicide.

Steven Liedel, an attorney who specializes in constitutional law and served as chief counsel to former Gov. Jennifer Granholm, said the law doesn't support independent citizens using violence to protect private business owners.

"Arguably, they can be interfering with law enforcement when they're engaging in those sort of activities," Liedel said. "They're deciding for themselves who's violating the law and who is not. There's no due process and there's no training, and that's just vigilante justice, which is not permitted."

McDaniel said there also is a political danger, since many paramilitary groups still consider former President Donald Trump their commander-in-chief, and his April 17 tweet to "liberate Michigan" was seen as an order. He said those adherents remain in the wings.

"Once you open that can of political violence, you can't screw the lid back on," McDaniel said.

KEEPING IT COOL

But the state does not regulate paramilitary activity. As long as members aren't planning violence or breaking other laws, the groups are often left alone.

One reason, McDaniel said, is "there's a very strong streak of this right of seclusion in Michigan," McDaniel said, also noting that, like the nation, Michigan has "a culture of guns."

And in fairness, he said, not all groups are out to overthrow the government.

"It's easy to disparage them and say they're just running through the woods, carrying weapons and playing army," McDaniel said, "but some of them truly believe that they're part of the unorganized militia and have been helpful on occasion with doing public service."

Above all, he suggested, prudence calls for a hands-off approach.

"If you're a prosecutor, you're not going to go looking for trouble," McDaniel said. "You don't want to rile up part of your base and you especially don't want to martyr them."

‘Find the beauty in being different’

Local author's books encourages Black children to be themselves

Isis Simpson-Mersha
isimpson@mlive.com

GRAND BLANC — Cassidy Perry's experience when she was 4 inspired her mother to write a book that helped her change the way she views her beauty.

LaTashia Perry sent her daughter Cassidy to ballet class several years ago. Cassidy, now 10, donned her special outfit with ballerina shoes and had her hair fixed in two curly afro puffs.

"When we picked her up, she was crying, and she said she did not want to go back to the class anymore," Perry said.

During class, one of Cassidy's classmates made fun of her hair.

"She was told her hair looked funny and asked why she was wearing her hair like that," Perry said, adding her daughter was the only Black girl in the class.

Perry switched Cassidy to a different class and looked for books that represented and talked about her daughter's features — but she couldn't find any.

"I was like, 'I cannot believe in 2014 that there are no books,'" Perry said.

The absence of the books that represented her daughter ignited Perry to write her first book, "Hair Like Mine," which was published in 2015.

"A little girl goes around, and she's trying to find people with hair like hers, and she finds out that we're all different," Perry said. "We're all different, find comfort in that. Find the beauty in being different and being yourself and being happy with who you are."

The cover of the book features Cassidy with her hair styled the same as it was during her ballet class.

"They (the books) really did help me because I would get made fun of because of how my hair would look and when she made the book, it made me feel comfortable," Cassidy said. "I think it helps kids, too, because they could be going through the same problems that I did — maybe

being bullied and not feeling comfortable and loving themselves."

EMPOWERING CHILDREN

Cassidy's younger sister, Carrington, 7, also has learned the message.

"Everyone's different, but beautiful in their own way," she said. "Just be you, you don't have to change for other people. Just don't care what other people say."

In addition to the books, Perry has embraced things such as her own natural beauty to empower her children. She even went so far as to cut all of her hair off and allow it to regrow in its natural curl pattern.

"I was actually showing her, 'Look, I'm wearing my hair like this because it is beautiful, and I want you to be comfortable, too.' She's never asked to get her hair straightened," Perry said. "She loves her hair how it is, the book and I think wearing my hair like this, I think both of them empowered her."

The following year, the author published the book "Skin Like Mine" after Carrington, Perry's youngest child, noticed the difference in her skin tone compared to her parents and siblings and had questions about it.

The mother of five — with another baby expected in June — has written six books, including, "Dreams Like Mine," "Baby Like Mine," "Imagination Like Mine" and a "Hair Like Mine" coloring and activity book.

VISITING COMMUNITIES

Recently, the Flint native was recognized by Grand Blanc Community Schools because of her placement on the state's list of African American History Month Literature.

"I know that the work is making an impact," Perry said. "I hear it from teachers, from moms and dads. I hear it all over."

The author is celebrating selling 400,000 books worldwide, according to Perry. This milestone was completed without an agency or a publishing company, she added.

In an effort to reach communities that may not have access to books, Perry created a bookmobile that will visit commu-

nities throughout Genesee County, starting this spring with her books and others that discuss diversity, apparel, puzzles and more.

"At first, I wanted a brick-and-mortar and, then, I thought, 'If I get a bookmobile, I can go right into these communities to meet people right where they're at,'" Perry said.

The author is also getting into schools as they reopen, so she can read to classrooms. During the COVID-19 pandemic, she has read stories to classrooms across the country via Zoom.

"I think it's important because — just growing up, I remember seeing all the different women on TV and magazines, and none of the women ever looking like me," Perry said. "What happens is you spend your entire life trying to be something other than what you're meant to be. I wanted to always be intentional about making sure I poured into my girls while they were young that who they were was enough."

Local officials promote free community college

Michigan Reconnect offers free tuition for an associate degree or skill certificate to those who qualify

Riley Murdock rmurdock@mlive.com

Flint Mayor Sheldon Neeley and his wife, state Rep. Cynthia Neeley, D-Flint, took part in a Zoom news conference Monday to promote a new program that provides free community college tuition to eligible Michiganders.

Launched at the beginning of February, the Michigan Reconnect program is building on the success of the state's Futures for Frontliners program, which has enrolled 15,000 essential workers with free community college tuition this semester, said Susan Corbin, acting director of the Michigan Department of Labor and Economic Opportunity.

The state aims to have 60% of Michiganders hold a postsecondary degree by 2030, Corbin said.

Michigan Reconnect will pay tuition and fees for an associate degree or skill certificate at a local community college for those 25 or older who have lived in Michigan for at least a year and who hold a high school diploma but do not yet have a college degree.

There are 463,000 eligible residents in Mid-Michigan and the Thumb, Corbin said, and the program has already received 45,000 applicants statewide.

"Imagine the possibility for our families and our workforce if even half of those eli-

gible take advantage of this opportunity," Corbin said.

A bipartisan group of legislators approved \$30 million in funding for the program this fiscal year, Cynthia Neeley said.

There are 190,000 eligible residents in Genesee County alone, she added.

"A program like Reconnect is overdue," Cynthia Neeley said. "I certainly hope all eligible Michiganders will explore this historic opportunity."

Sheldon Neeley said he believes the program is a huge win for the state, opening the door to higher education for those who couldn't otherwise afford it and helping to fill more than 500,000 job openings across the state requiring higher education.

"Can we say 'game-changer?'" Sheldon Neeley asked. "We need highly trained workers, and community colleges are the perfect vehicle to help."

Erica Mata, a Michigan Reconnect recipient in Bay City, is a mother of three working as a restaurant server.

She has been pursuing an associate degree in nursing at Delta College part-time for two years, paying her way with student loans.

During Monday's news conference, Mata said starting her next semester with a Michigan Reconnect scholarship will take a huge weight off her shoulders.

"For the last two years, I worried about my student loans, knowing they would be there waiting for me," she said. "Reconnect is the chance for me and so many others to get out there and reach for your dreams."

There is no deadline for applying to the program at this time, Corbin said. To apply, go to michigan.gov/reconnect.

"Can we say 'game-changer?' We need highly trained workers, and community colleges are the perfect vehicle to help."

LEGAL NOTICE

UNITED STATES DISTRICT COURT EASTERN DISTRICT OF MICHIGAN

If you were exposed to water from the Flint Water Treatment Plant between April 25, 2014 and November 16, 2020, your rights may be affected by a \$641 million settlement.

The deadline to register for the Settlement is March 29, 2021.
To learn more, visit www.OfficialFlintWaterSettlement.com

This notice explains a class action settlement in the Flint Water Cases. The notice applies to you if at any time during the period April 25, 2014 to November 16, 2020 ("Exposure Period"):

- (1) you were exposed to water from the Flint Water Treatment Plant ("FWTP") and you were 18 years or older at any time when you were exposed; or
- (2) you were 18 years or older at any time when you owned, rented, or lived in residential property served by the FWTP, or were legally liable for the payment for such water, during that time; or
- (3) you owned or operated a business served by the FWTP, or were legally liable for the payment for such water, during that time.

What is the lawsuit about? The lawsuits assert that residents of Flint and others who used or were exposed to water from the FWTP between April 25, 2014 and November 16, 2020, suffered personal injury, property damage, economic loss, or any other type of damage or injury as a result of exposure to, use of, or being obligated to pay for, the contaminated water. The lawsuits claim that when the City of Flint switched to the Flint River as the source of water in 2014, the water was not treated correctly and that it caused pipes to corrode and release lead and other contaminants into the water. Plaintiffs allege that exposure to contaminated water received from the Flint Water Treatment Plant (located at 4500 Dort Highway, Flint, Michigan 48506), during the period April 25, 2014 to November 16, 2020, has caused a public health crisis.

Settling Defendants deny any and all alleged liability, wrongdoing, violations, and/or damages. The Court has not decided who is right.

Who is included? The Settlement Class includes all persons or entities who are or could be claiming personal injury, property damage, business economic loss, unjust enrichment, breach of contract, or seeking any other type of damage or relief. Specific details on the Settlement Class and Subclasses are available at www.OfficialFlintWaterSettlement.com.

What does the Settlement provide? The value of the entire Settlement Program is approximately \$641.25 million. The Settlement Fund is allocated among different categories. Please visit www.OfficialFlintWaterSettlement.com to see how the Settlement Fund is allocated by category. If the settlement becomes final, Settlement Class Members who participate in the settlement or do nothing at all will release all their claims against the Settling Defendants. They will not be allowed to bring any lawsuit against the Settling Defendants related to Flint water or the Flint Water Cases.

What are your options? To make a claim for money from the class action Settlement Fund, you must first submit a valid Registration Form. You may file your Registration Form online or by mail. The deadline to file a Registration Form online is 11:59 pm PST on March 29, 2021. The postmark deadline to file a Registration Form by mail is March 29, 2021. Visit www.OfficialFlintWaterSettlement.com now to file your online Registration Form or print one out to file by mail. Those that validly file a Registration Form will later be sent a Claim Form along with instructions about how to complete the Claim Form.

If you do not want to participate in this proposed class settlement and you want to keep the right to sue the Settling Defendants about the legal issues in this case, then you must take steps to get out of the settlement. This is called "opting out" of the Settlement Class. To opt out of the Settlement Class and not participate in the settlement, you must send a written request using the Opt Out Form provided at www.OfficialFlintWaterSettlement.com. You must mail your completed Opt Out Form, postmarked by March 29, 2021. If you are a member of the Settlement Class and do not opt out, you give up the right to sue the Settling Defendants for any of the claims released by the settlement. If you are a Settlement Class Member (and do not exclude yourself from the Settlement Class), you can object to any part of the Settlement. The deadline to file an objection is March 29, 2021. For more information on how to Opt Out or Object, please visit www.OfficialFlintWaterSettlement.com.

The Court will hold a Fairness Hearing, currently scheduled for July 12, 2021, to determine whether the Settlement Class can be certified and whether the settlement is fair, adequate, and reasonable and should be finally approved, with judgment entered accordingly. The Court will also consider the application for an award of attorneys' fees and expense reimbursement. You are welcome to attend the hearing at your own expense, but you are not required to attend. You may also hire your own attorney, at your own expense, to appear or speak for you at the hearing. For more information, call 1-800-493-1754 or visit www.OfficialFlintWaterSettlement.com.

UNITED STATES DISTRICT COURT EASTERN DISTRICT OF MICHIGAN

The deadline to register for the Settlement is March 29, 2021.

To learn more, visit www.OfficialFlintWaterSettlement.com

This notice explains a class action settlement in the Flint Water Cases. The notice applies to you if at any time during the period April 25, 2014 to November 16, 2020 ("Exposure Period"):

- (1) you were exposed to water from the Flint Water Treatment Plant ("FWTP") and you were 18 years or older at any time when you were exposed; or
- (2) you were 18 years or older at any time when you owned, rented, or lived in residential property served by the FWTP, or were legally liable for the payment for such water, during that time; or
- (3) you owned or operated a business served by the FWTP, or were legally liable for the payment for such water, during that time.

What is the lawsuit about? The lawsuits assert that residents of Flint and others who used or were exposed to water from the FWTP between April 25, 2014 and November 16, 2020, suffered personal injury, property damage, economic loss, or any other type of damage or injury as a result of exposure to, use of, or being obligated to pay for, the contaminated water. The lawsuits claim that when the City of Flint switched to the Flint River as the source of water in 2014, the water was not treated correctly and that it caused pipes to corrode and release lead and other contaminants into the water. Plaintiffs allege that exposure to contaminated water received from the Flint Water Treatment Plant (located at 4500 Dort Highway, Flint, Michigan 48506), during the period April 25, 2014 to November 16, 2020, has caused a public health crisis.

Settling Defendants deny any and all alleged liability, wrongdoing, violations, and/or damages. The Court has not decided who is right.

Case 5:16-cv-10444-JEL-MKM-ECF No. 1794-3 PageID 64456 Filed 05/27/21 Page 121 of 125
Who is included? The Settlement Class includes all persons or entities who are or could be claiming personal injury, property damage, business economic loss, unjust enrichment, breach of contract, or seeking any other type of damage or relief. Specific details on the Settlement Class and Subclasses are available at www.OfficialFlintWaterSettlement.com.

What does the Settlement provide? The value of the entire Settlement Program is approximately \$641.25 million. The Settlement Fund is allocated among different categories. Please visit www.OfficialFlintWaterSettlement.com to see how the Settlement Fund is allocated by category. If the settlement becomes final, Settlement Class Members who participate in the settlement or do nothing at all will release all their claims against the Settling Defendants. They will not be allowed to bring any lawsuit against the Settling Defendants related to Flint water or the Flint Water Cases.

What are your options? To make a claim for money from the class action Settlement Fund, you must first submit a valid Registration Form. You may file your Registration Form online or by mail. The deadline to file a Registration Form online is 11:59 pm PST on **March 29, 2021**. The postmark deadline to file a Registration Form by mail is **March 29, 2021**. Visit www.OfficialFlintWaterSettlement.com now to file your online Registration Form or print one out to file by mail. Those that validly file a Registration Form will later be sent a Claim Form along with instructions about how to complete the Claim Form.

If you do not want to participate in this proposed class settlement and you want to keep the right to sue the Settling Defendants about the legal issues in this case, then you must take steps to get out of the settlement. This is called "opting out" of the Settlement Class. To opt out of the Settlement Class and not participate in the settlement, you must send a written request using the Opt Out Form provided at www.OfficialFlintWaterSettlement.com. You must mail your completed Opt Out Form, **postmarked by March 29, 2021**. If you are a member of the Settlement Class and *do not* opt out, you give up the right to sue the Settling Defendants for any of the claims released by the settlement. If you are a Settlement Class Member (and do not exclude yourself from the Settlement Class), you can object to any part of the Settlement. The deadline to file an objection is **March 29, 2021**. For more information on how to Opt Out or Object, please visit www.OfficialFlintWaterSettlement.com.

The Court will hold a Fairness Hearing, currently scheduled for **July 12, 2021**, to determine whether the Settlement Class can be certified and whether the settlement is fair, adequate, and reasonable and should be finally approved, with judgment entered accordingly. The Court will also consider the application for an award of attorneys' fees and expense reimbursement. You are welcome to attend the hearing at your own expense, but you are not required to attend. You may also hire your own attorney, at your own expense, to appear or speak for you at the hearing. For more information, call 1-800-493-1754 or visit www.OfficialFlintWaterSettlement.com.

FLINT, Mich., 26 de febrero de 2021 /PRNewswire-HISPANIC PR WIRE/ --

TRIBUNAL DE DISTRITO DE LOS ESTADOS UNIDOS DISTRITO ESTE DE MICHIGAN

La fecha límite para registrarse en el Acuerdo es el 29 de marzo de 2021.

Para obtener más información, visite www.OfficialFlintWaterSettlement.com

Este aviso explica un acuerdo de demanda colectiva en los casos de Flint Water. El aviso se aplica a usted si en cualquier momento durante el período del 25 de abril de 2014 al 16 de noviembre de 2020 ("Período de exposición"):

- (1) estuvo expuesto al agua de la Planta de Tratamiento de Agua de Flint ("FWTP", por sus siglas en inglés) y tenía 18 años o más al momento de estar expuesto; o
- (2) tenía 18 años o más cuando era propietario, alquilaba o vivía en una propiedad residencial atendida por la FWTP o era legalmente responsable del pago de dicha agua, durante ese

momento; o

(3) usted era dueño u operaba un negocio que recibía los servicios de FWTP o era legalmente responsable del pago de dicha agua, durante ese tiempo.

¿De qué se trata la demanda? Las demandas afirman que los residentes de Flint y otros que usaron o estuvieron expuestos al agua de la FWTP entre el 25 de abril de 2014 y el 16 de noviembre de 2020, sufrieron lesiones personales, daños a la propiedad, pérdidas económicas o cualquier otro tipo de daño o lesión como resultado de la exposición, el uso o la obligación de pagar por el agua contaminada. Las demandas afirman que cuando la ciudad de Flint cambió al río Flint como fuente de agua en 2014, el agua no se trató correctamente y provocó la corrosión de las tuberías y la liberación de plomo y otros contaminantes en el agua. Los Demandantes alegan que la exposición al agua contaminada recibida de la planta de tratamiento de agua de Flint (ubicada en 4500 Dort Highway, Flint, Michigan 48506), durante el período del 25 de abril de 2014 al 16 de noviembre de 2020, ha causado una crisis de salud pública.

Los Demandados en conciliación niegan cualquier y toda supuesta responsabilidad, irregularidad, infracciones y/o daños. El Tribunal no ha decidido quién tiene razón.

¿Quién está incluido? La Clase del Acuerdo incluye a todas las personas o entidades que están o podrían reclamar lesiones personales, daños a la propiedad, pérdidas económicas comerciales, enriquecimiento injusto, incumplimiento de contrato o que buscan cualquier otro tipo de daño o reparación. Los detalles específicos sobre la Clase y las Subclases del Acuerdo están disponibles en www.OfficialFlintWaterSettlement.com.

¿Qué proporciona el Acuerdo? El valor de todo el Programa del Acuerdo es de aproximadamente \$641.25 millones. El Fondo del Acuerdo se distribuye entre diferentes categorías. Por favor, visite www.OfficialFlintWaterSettlement.com para ver cómo se asigna el Fondo del Acuerdo por categoría. Si el acuerdo llega a ser definitivo, los Miembros del grupo del acuerdo que participen en el acuerdo o no hagan nada en absoluto liberarán todas sus reclamaciones contra los Demandados del acuerdo. No se les permitirá entablar ninguna demanda contra los Demandados del Acuerdo en relación con Flint Water o los Casos de Flint Water.

Case 5:16-cv-10444-JEL-MKM ECF No. 1794-3 PageID.64459 Filed 05/27/21 Page 124 of 125

¿Cuáles son sus opciones? Para realizar una reclamación de dinero del Fondo del Acuerdo de demanda colectiva, primero debe presentar un Formulario de registro válido. Puede presentar su Formulario de registro en línea o por correo. La fecha límite para presentar un Formulario de registro en línea es el **29 de marzo de 2021** a las 11:59 p.m. PST. La fecha límite del matasellos para presentar un Formulario de registro por correo es el **29 de marzo de 2021**. Visite www.OfficialFlintWaterSettlement.com ahora para presentar su Formulario de registro en línea o imprima uno para enviarlo por correo. Aquellos que presenten válidamente un Formulario de registro recibirán posteriormente un Formulario de reclamo junto con instrucciones sobre cómo completar el Formulario de reclamo.

Si no desea participar en este acuerdo colectivo propuesto y desea conservar el derecho de demandar a los Demandados del Acuerdo sobre los problemas legales de este caso, debe tomar medidas para salir del acuerdo. A esto se le llama "excluirse" de la Clase del Acuerdo. Para excluirse de la Clase del Acuerdo y no participar en el mismo, debe enviar una solicitud por escrito utilizando el Formulario de exclusión que se proporciona en www.OfficialFlintWaterSettlement.com. Debe enviar por correo su Formulario de exclusión completado, **con matasellos antes del 29 de marzo de 2021**. Si es miembro de la Clase del Acuerdo y *no* opta por excluirse, renuncia al derecho de demandar a los Demandados del Acuerdo por cualquiera de los reclamos liberados por el Acuerdo. Si es Miembro de la Clase del Acuerdo (y no se excluye de la Clase del Acuerdo), puede objetar cualquier parte del Acuerdo. La fecha límite para presentar una objeción es el **29 de marzo de 2021**. Para obtener más información sobre cómo excluirse u objetar, por favor visite www.OfficialFlintWaterSettlement.com.

El Tribunal realizará una Audiencia de imparcialidad, actualmente programada para el **12 de julio de 2021**, para determinar si la Clase del Acuerdo puede ser certificada y si el acuerdo es justo, adecuado y razonable y debe ser finalmente aprobado, con sentencia en consecuencia. El Tribunal también considerará la solicitud de reembolso de gastos y honorarios de abogados. Puede asistir a la audiencia por su cuenta, pero no está obligado a asistir. También puede contratar a su propio abogado, por cuenta propia, para que comparezca o hable por usted en la audiencia. Para obtener más información, llame al 1-800-493-1754 o visite www.OfficialFlintWaterSettlement.com.

Civil Action No. 5:16-cv-10444-JEL-MKM (consolidated)

Hon. Judith E. Levy
Mag. Mona K. Majzoub

**DECLARATION OF LESLIE M. KROEGER IN SUPPORT OF
CLASS PLAINTIFFS' MOTION FOR CERTIFICATION OF
SETTLEMENT CLASS, FINAL APPROVAL OF CLASS SETTLEMENT,
AND APPOINTMENT OF SETTLEMENT CLASS COUNSEL**

I, Leslie M. Kroeger, make this declaration pursuant to 28 U.S.C. § 1746. I hereby declare under penalty of perjury that the following is true and correct:

1. I am a partner at the law firm Cohen Milstein Sellers & Toll PLLC and am counsel of record in this case. I have been closely involved in the steps taken by Interim Co-Lead Class Counsel to facilitate the notice and registration process.

2. Prior to the settlement being announced Interim Class Counsel retained an answering service that could take calls seven days a week, 24 hours per day. That service went live on August 20, 2020, when the proposed settlement information was publicly announced.

3. Personnel at the law firms of Interim Co-Lead Class Counsel and Executive Team members have been available to take live calls (and return missed calls) from community members regarding the proposed settlement on Monday

through Friday, from 9 am to 5pm. For the initial 30 days and during the 60-day Registration period, law firm personnel were additionally available to answer and return calls on weekends.

4. Call logs from the answering service indicate that as of May 18, 2021, the answering service has fielded 5,562 calls, each of which were passed on to law firm personnel for either immediate answering or a follow-up call.

5. In addition to the answering service, Interim Class Counsel established a text-only request for information service for members of the community to ask questions regarding the proposed settlement. As of January 31, 2021, law firm personnel had responded to 574 text messages for information.

6. Interim Co-Lead Class Counsel established and have maintained a website, www.flintwaterjustice.com, to provide information to settlement class members regarding the settlement process. The website allows for individuals to initiate a “Chat” requesting information from law firm personnel. As of May 18, 2021, law firm personnel have responded to 1,331 web chats from members of the community.

7. Interim Co-Lead Class Counsel have further established and maintained a specific email account for the purpose of communicating with members of the community regarding this litigation and the settlement process. To

date, approximately 5,000 emails have been received and responded to concerning the settlement process.

8. In a continued effort to reach the community and answer questions on a larger scale, Interim Class Counsel held Conference Calls and Town Hall via Zoom explaining details of the settlement and registration process. Conference Calls, known within the community as “First Friday” calls, were held September 11, 2020, October 2, 2020; and November 6, 2020. Zoom Town Hall meetings were held December 2, 2020; January 28, 2021; February 25, 2021; March 4, 2021; March 11, 2021; March 18, 2021; March 25, 2021; and May 6, 2021. The Town Hall Meetings were recorded, and the video recordings were placed on the website for review by any member of the community. Additional Town Hall meetings are scheduled to be held at least monthly throughout the Claims Process.

9. Interim Co-Lead Class Counsel ran radio ads on seven local radio stations in Flint, Michigan, to further provide the public with information regarding the proposed settlement. These ads provided general information about the settlement and directed listeners to call a phone number or visit the settlement website for further information. These advertisements resulted in 2,771,332 delivered impressions.

10. Interim Co-Lead Class Counsel has office space at 1188 Robert T. Longway Blvd, Flint Michigan. Due to the COVID-19 pandemic, the office was

closed at the time the proposed settlement was announced. On January 29, 2021, after the Court issued its preliminary approval order, Interim Co-Lead Class Counsel re-opened the office under strict public health guidelines. Law firm personnel worked with over 2,000 individuals to complete registration forms. The office also served as a location for additional members of the community to drop off completed registration forms, forms of identification, or other documents required in the registration process. All items received were submitted to Archer, the claims administrator, for processing.

11. Many of the community members who attended Town Halls or otherwise reached out to Interim Co-Lead Class Counsel ultimately chose not to individually retain Class Counsel and instead registered to participate in the Settlement as an absent member of the Settlement Subclasses or minor. For all inquiries, Interim Co-Lead Class Counsel would first inquire as to whether the individual had previously retained counsel. If they had, they were referred to their counsel. Interim Co-Lead Class Counsel provided information and assistance to all other individuals who contacted them through one of the methods identified above.

I declare, under penalty of perjury, that the foregoing is true and correct.

DECLARATION OF HUNTER J. SHKOLNIK

I, Hunter J. Shkolnik, declare under 28 U.S.C. § 1746 as follows:

1. I am a partner at Napoli Shkolnik PLLC, Co-Liaison Counsel for Individual Cases in the above-captioned matter.

2. I submit this Declaration in Support of the Supplemental Memorandum in Support of Plaintiffs' Motion for an Award of Attorneys' Fees and Reimbursement of Expenses.

3. This Declaration responds to unfounded objections set forth in the objectors' papers relating to final approval of this historic settlement.

4. Discovery in this matter yielded millions of pages of documents and over one hundred depositions of fact and expert witnesses. Given the breadth of complex cases such as the Flint Water Litigation, it is common practice to rely on contract lawyers particularly in mass litigation where law firms need to add professional staff to quickly and competently prosecute, or defend, a case. While these individuals are employed on a project-related basis, all are experienced

attorneys working exclusively on the Flint matter for Napoli Shkolnik. These lawyers are integrated into the firm using Napoli Shkolnik email accounts, attend strategy meetings with counsel, and were actively engaged in the prosecution of the bellwether cases and the generic liability discovery over the past four (4) years.

5. In addition, my firm is not seeking common benefit fees related to the bone scan program. I included in my Declaration a paragraph outlining the efforts of counsel in marshalling this litigation from its infancy through the landmark settlement. *See* Fee Mot., Ex. 4, Decl. of Hunter J. Shkolnik, ECF No. 1458-5. Included in those efforts are Co-Liaison Counsel's efforts to open their bone scan program, at the request of the objectors, to members of the community and individually represented claimants. This work was highlighted in my Declaration simply as an illustration of the work and dedication myself and Mr. Stern have brought to this litigation and is not being offered as a basis for a common benefit award. The nearly 30,000 hours and \$1,127,748.43 in costs referenced in my Declaration (ECF No. 1458-5) do not reflect time or expense entries related to the bone scan program.

6. I declare, under penalty of perjury, that the foregoing is true and correct.

Opinion

ORDER DENYING REIMBURSEMENT

Pending before this Court is the Direct Purchaser Class' ("DPC") Motion for Reimbursement of Inadvertently-Omitted Expenses (Doc. 2106). Specifically, counsel seek reimbursement for two invoices from Econ One for work performed by economic expert Dr. Jeffrey Leitzinger and his staff

as follows:

- Invoice No. 10545, dated January 12, 2015 for services and expenses during the period November 29, 2014-December 31, 2014 totaling \$2,284.60
- Invoice No. 10728, dated February 28, 2015 for services and expenses during the period February 1, 2015-February 28, 2015 totaling \$125,956.99

This Court is sympathetic to DPC counsel's predicament and recognizes the amount of money at issue is relatively small when compared to the total settlement distribution to class members. Nevertheless, as the Sixth Circuit recently highlighted, fulsome disclosure of information to both class members and the general public is of paramount importance in the class action settlement context. *See generally* [*Shane Grp., Inc. v. Blue Cross Blue Shield of Mich.*, 825 F.3d 299 \(6th Cir. 2016\)](#). The Final Approval Hearing for the relevant DPC Settlements was held on October 9, 2015 [*6] (Doc. 1926). This Court hesitates to reimburse counsel any amount, small or large, that was not included in the final approval paperwork because there has been no opportunity for review, comment, or objection.

In short, DPC counsel have realized, more than a day late, that they are more than a dollar short. For the reasons stated above, the Motion is denied.

IT IS SO ORDERED.
